My Dropbox password is: _____

Information Stored

The information stored I have stored in 1Password is accessible by entering either the appropriate Master Password alone (on Mac/PC/iPad) or the 4-digit pass-code plus the appropriate Master Password when prompted (on iPhone/Android).

I have stored the following types of information in 1Password:

- Website Login and Password Information
- Accounts (like iTunes)
- Secure Notes
- Wallet (includes credit card, bank account and personal information)
- Software Licenses

Note: For information on how to use 1Password, go to <http://help.agilebits.com> and choose the link(s) for the version(s) I own.
